

Carry On

CB Milton

Seasons are turning
The world keeps holding on
Why are they fighting to be strong
We found a reason
And though the road is long
Love is the place we belong

Carry on, got to find your way
Carry on, there's a price to pay
Carry on, and on and on and on
And on

When the world gets you down
You can turn it around
If you carry on
You can reach to the top
Don't give in, don't give up
Got to carry on

Seasons are turning
The world keeps holding on
Why are we fighting for so long
Brothers and sisters
We know the road is long
Love is the place we belong

When the world gets you down
You can turn it around
If you carry on
You can reach to the top
Don't give in, don't give up
Got to carry on

And when the feeling's gone
Just keep on holding on
You'll find that you are strong
If you just carry on
