

We Are The One

CB Milton

Life can be so demanding
Things keep changing every way
But I know we'll still be standing
Gettin' better every day

Don't be afraid to take a chance
If you believe
The best thing about this life
It's all within our reach

We are the one, we are the one
We are the lucky people
We're taking our message to the world
We are the one, we are the one
We are the lucky people
Together our voices will be heard

Just use your imagination
It will move you very far
It's all in your hands so take it
Show the world just who you are

We've got a reason to keep
Pushin' on and on
And I know we'll make it there
Together we'll make it there
Together we'll be strong
