

What About Me

CB Milton

It's such a funny situation
Every time I look around
I see someone in love
And it's setting me down

As people come together
Yeah they give their love so sweet
I see them alking hand in hand
No there ain't nothin' better

But what about me ?
What about me ?
Everybody's needing the same thing
So what about me ?

If I could find an explanation
Something I can say or do
I've got to find my way
So love can come through

It's getting hard to live without it
I think about it every night
Everybody's got someone now
They seem to be so happy
