

# For Always

CeCe Winans

Remembering so well, the day that I met you  
You took me in your arms and caused dreams to come true  
From the fear of what would be  
You came and rescued me

CHORUS:

Lord I pray today for the rest of my life,  
live inside my heart please stay for always  
till that timeless place when we're face to face  
And we embrace for always

I look ahead and see the hills that I must climb  
Some high and some low  
But if you lead I'll go  
and at the end I'll see, you were always there with me

CHORUS
