Waging War

CeCe Winans

Anoint my head anoint my feet Send your angels raining down Here on the battle ground For your glory Were taking territory Fighting unseen enemies Like never before Were Waging War

I'm tired of principalities Messing with me (Waging war) I'm tired of the devil Stealing from me (Waging war) I promise he won't get One more thing (Waging war) I'm taking it back Taking territory (Waging war) I'm ready for the battle I'm ready to win (Waging war) My weapon of power He lives within (Waging war) I can't be defeated The enemy gotta flee (waging war) I'm taking it back Taking territory

Going into battle Going into battle

Be my sword
Be my shield
As we claim the victory
Over the enemy
In your name
You rule and rain
Never being defeat
Anymore
Were waging war

Send your fire Send your fire

Fire by night
Cloud by day
A strong tower
Send the latter rain
Lion of Judah
Lord, God,
Mighty In battle
Since you did

It back then
We know you'll do
It again

Were going into battle Were going into battle

Waging war
