

# Armor

Celeste Buckingham

(Ohhh)

Back me into a corner  
But I need to warn you  
I'm not a typical, typical girl

Though you try to control me  
And I know I bruise easy  
You'll never get me, get me to hurt  
I built my walls so tall  
You can't see 'em at all  
But watch me knock 'em down  
I'm stumblin' but steady  
No one said this was easy  
I think I'm ready

Try to tie down my wings  
But you can't tie down everything  
Might've worked well before  
But it won't get to me, get to me now

Cause I'm free yeah now that I'm free  
I'm takin' off my armor

(Ohhh)

I was a bird in a cage  
But now I'm walking away  
From all the things I never needed to know  
You tried to keep me away  
From all the dark and the hate  
But I've gotta learn a live on my own  
Ain't how it used to be can't change reality  
Or turn me back to something that was never me

Try to tie down my wings  
But you can't tie down everything  
Might've worked well before  
But it won't get to me, get to me now

Cause I'm free yeah now that I'm free  
I'm takin' off my armor

Can't tie down my wings  
And you can't take back, take back anything

Try to tie down my wings  
But you can't tie down everything  
Might've worked well before  
But it won't get to me, get to me now

Cause I'm free yeah now that I'm free  
I'm takin' off my armor

Armor, armor, takin' off, my armor, yeah
