

Crushin' My Fairytale

Celeste Buckingham

The doctor told me that
that I'm just needy
no he can't help me, nothing will until you do
One day you'll save me, instead of faking but
for now I'm waiting till I'm good enough for you

But I'm not a queen and this ain't my castle
I can't believe that you're turning the tables
Why can't you see that that you and me can
live on forever, forever

You're crushin', you're crushin', crushin' my fairytale
You're crushin', you're crushin', crushin' my fairytale
You're crushin', you're crushin', crushin' my fairytale
You're crushin', you're crushin', crushin' my fairytale

I guess it's useless trying to change it
accept my faith and wait for what I call a sign
That you are worth it that you deserve it
so make it painless and baby say that you'll be mine

But I'm not a queen and this ain't my castle
I can't believe that you're turning the tables
Why can't you see that that you and me can
live on forever, forever

You're crushin', you're crushin', crushin' my fairytale
You're crushin', you're crushin', crushin' my fairytale
You're crushin', you're crushin', crushin' my fairytale
You're crushin', you're crushin', crushin' my fairytale

Watching all of my rivers just running dry
Always wished that we make it that we'd survive
The grass is always greener on the other side but I can't lie

But I'm not a queen and this ain't my castle
I can't believe that you're turning the tables
Why can't you see that that you and me can
live on forever, forever

You're crushin', you're crushin', crushin' my fairytale
You're crushin', you're crushin', crushin' my fairytale
You're crushin', you're crushin', crushin' my fairytale
You're crushin', you're crushin', crushin' my fairytale

You're crushin', you're crushin', crushin' my fairytale (yeah)
You're crushin', you're crushin', crushin' my fairytale
