

# Walk Beside You

Celeste Buckingham

There's no reason to believe  
that everything you dream  
was never meant to find its place  
right within your reach.  
No one can be like you.

Future's never set in stone  
you make your own way  
through the struggles life can hold  
you'll bend but you won't break  
No one can be like you.

Don't look away because you're afraid  
You're never on your own  
When it hurts don't you ever think its over  
Cause I know that hope is strong enough for both of us  
I will walk I will walk beside you  
When all your sleepless nights are feeling colder  
just hold on to hope that's strong enough for both of us.  
I will walk I will walk beside you

There's no reason to give in  
when they try to tear you down  
You're gonna rise above the noise  
and see right through the doubt  
No one can be like you

Don't look away because you're afraid  
You're never on your own  
When it hurts don't you ever think its over  
Cause I know that hope is strong enough for both of us  
I will walk I will walk beside you  
When all your sleepless nights are feeling colder  
just hold on to hope that's strong enough for both of us  
I will walk I will walk beside you

Don't you ever think it's over it's not over  
Don't you ever think you're not stronger 'cause you're stronger

When it hurts don't you ever think its over  
Cause I know that hope is strong enough for both of us  
I will walk I will walk beside you  
When all your sleepless nights are feeling colder  
just hold on to hope that's strong enough for both of us  
I will walk I will walk beside you  
I will walk I will walk beside you
