

Army Of The Universe

Celesty

With the power and might
We must fight till we die
Protecting the man with the stones in his hand.
The power of stones is your one chance to win.
If they get them, then all will be lost.

I armor my troops.
And saddle my horse.
With the power and might you must head for the fight or die.
Die without honour.

From your fear we get rage
Kill your warriors slay your mage(s)
Protecting the man with the stones in his hand or die
Die, now, human, scum
With the power and might you must head for the fight

Hagal must not die today.
We must keep the enemy away.

The battlefield of hope is where we stand a side together
The power from the stones we have
They rule this land forever.
The darkest army of universe is here.

Battleships and warriors
Too much for an eye to see.
With the power and might you must head for the fight or die
Die by our hand

The man, with the force, Kill him now, Kill him now
Protecting the man with the stones in his hand or die
Die, he must not.

With the power and might you must head for the fight

Hagal must not die today.
We must keep the enemy away.

The battlefield of hope is where we stand a side together
With power from the stones we have
They rule this land forever.
The darkest army in universe is here.

If Hagal dies, or you happen to fail.
Stones will appear back to Dale.
Prepare your best man and take them then leave.
Go and protect the Dale whit arms and steel

There they come with large army I see.
Ground is shaking I feel that in me.
Two of creatures look down to me
Give us the stones or you never be free

I raise my sword up to the sky
Tell my troops be ready to go
I look back in their eyes with pride

And shout proudly no!

Battlefield of hope is where we stand a side together
With power from the stones we have
They rule this land forever
The battlefield of hope is where we stand a side together
With power from the stones we have
They rule this land forever
The darkest/greatest army in universe is here

With the power and might we must head for the fight or die
