

Sword Of Salvation

Celesty

I research Maegons notes, and I find an old black book
The book tells the truth, about creation of this world
In the beginning, Great Spirits of the Cryon
Had created a sword, which will unite all four powers

I take my sword into my hand...
I see there are marks of this land...

The earth and the wind, the fire and the ice
I could have all those powers and then I could rise

My sword is the key to that force...
Now it's time to open the final door...

I'll find my way in there, where the Gods keep their meetings
I'll unite all the powers into one
Then I'll rise to lead the land of the Cryon
With my Sword of Salvation

I send a message to the Gods, that there has been a fight
And the Great Warriors, have found the darkest light

Now the Gods have to gather in Dale...
Soon they all can have their final pray...

I'll find my way in there, where the Gods keep their meetings
I'll unite all the powers into one
Then I'll rise to lead the land of the Cryon
With my Sword of Salvation
With my Sword of Salvation

As Maegon I go to Dale
Then they all can have their final pray

I'll find my way in there, where the Gods keep their meetings
I'll unite all the powers into one
Then I'll rise to lead the land of the Cryon
With my Sword of Salvation

I'll find my way in there, where the Gods keep their meetings
I'll unite all the powers into one
Then I'll rise to lead the land of the Cryon
With my Sword of Salvation
With my Sword of Salvation
