

The Sword And The Shield

Celesty

Great Spirits hear me
We are hopeless can't you see
There must be one key
You have to set us free

Now I see a bright light in the sky
Great Spirits, they fly

Spirits know what to do
You gave us the sky so blue

The light turns to fire
Great Spirits come closer

Spirits in the sky
Among the flames they fly
Fire burning high
Voices on our mind...

We'll create you a sword from the stones
And the shield that protects you
We'll give you the courage to fight
It's all we can do to help.

Now to Graynell you go!
Breton's warriors will help you
From Sendell you find...
Cruelty of the darkest mind

You must fight for our freedom
You have to kill Delinom

With my troops I'll ride
To Sendell this sword by my side

I know that the Spirits are near
In my mind I won't feel the fear

Spirits in the sky
Among the flames they fly
Fire burning high
Voices in my mind...

We'll create you a sword from the stones
And the shield that protects you
We'll give you the courage to fight
It's all we can do to help.
I have to survive!
