

Wickedness Act

Celesty

Look at our son playing on the green fields
He looks so happy with his friends do you see

But that strange look in his eyes almost unreal
He's been acting strange now what could it be?

Someday he'll be the great leader you know
It's a great burdon to carry by your own

Yes but our son is strong he will survive

I'm not so sure just look into his eyes

Don't worry my dear he will be just fine now
Trust me and you will see

Everynight in my dreams I see
There's evil in his eyes
Although, I don't know what it means
It's not real, it's just a dream

I was scared when I opened my eyes
It was my son, right by my side
I didn't know what to do so I ran away
He shouted to me, please mom stay

Don't worry my mom I will be just fine now
Trust me and you will see

Everynight in my dreams I see
There's evil in his eyes
Although, I don't know what it means
It's not real, it's just a dream
