## A Song for You

## **Celine Dion**

I couldn't live
I couldnt live without your love
for one kiss
well I'd give everything up
there's no words I can describe
what I feel deep inside
so I let this song say it all

Then I hope you'll understand once you've listened till the end

Heard the music in my head so before I could forget

I start singing yeah I was singing this song for you

Just made up the words la la la ohhh ohhh yeah my heart with a melody

so I am singing this song for you
