

# Come to Me

Celine Dion

I will always love you no matter what  
No matter where you go or what you do  
And knowing you  
You're gonna have to do things you're own way  
And that's okay  
So be free, spread your wings  
And promise me just one thing...

If you ever need a place to cry  
Baby, come to me  
Come to me  
I've always known that you were born to fly  
But you can come to me  
If the world breaks your heart  
No matter where on Earth you are  
You can come to me

Don't walk around with the world on you're shoulders  
And you're highest hopes laying on the ground  
I know you think you've gotta try to be my hero  
But dont you know the stars you wish upon they fall its true  
But I still belive in you

If you ever need a place to cry  
Baby, come to me  
Come to me  
I've always known that you were born to fly  
But you can come to me  
If the world breaks your heart  
No matter where on Earth you are  
You can come to me

And the seven sea's you sail  
All the winding road you're on  
Leave you lost and feeling all alone  
Let my heart be your beacon home

If you ever need a place to cry  
Baby, come to me  
Come to me  
I've always known that you were born to fly  
But you can come to me  
When the world breaks your heart  
No matter where on Earth you are  
You can come to me
