

Come to Me

Celine Dion

I will always love you no matter what
No matter where you go or what you do
And knowing you
You're gonna have to do things you're own way
And that's okay
So be free, spread your wings
And promise me just one thing...

If you ever need a place to cry
Baby, come to me
Come to me
I've always known that you were born to fly
But you can come to me
If the world breaks your heart
No matter where on Earth you are
You can come to me

Don't walk around with the world on you're shoulders
And you're highest hopes laying on the ground
I know you think you've gotta try to be my hero
But dont you know the stars you wish upon they fall its true
But I still belive in you

If you ever need a place to cry
Baby, come to me
Come to me
I've always known that you were born to fly
But you can come to me
If the world breaks your heart
No matter where on Earth you are
You can come to me

And the seven sea's you sail
All the winding road you're on
Leave you lost and feeling all alone
Let my heart be your beacon home

If you ever need a place to cry
Baby, come to me
Come to me
I've always known that you were born to fly
But you can come to me
When the world breaks your heart
No matter where on Earth you are
You can come to me
