Come to Me

Celine Dion

I will always love you no matter what No matter where you go or what you do And knowing you You're gonna have to do things you're own way And that's okay So be free, spread your wings And promise me just one thing...

If you ever need a place to cry Baby, come to me Come to me I've always known that you were born to fly But you can come to me If the world breaks your heart No matter where on Earth you are You can come to me

Don't walk around with the world on you're shoulders And you're highest hopes laying on the ground I know you think you've gotta try to be my hero But dont you know the stars you wish upon they fall its true But I still belive in you

If you ever need a place to cry Baby, come to me Come to me I've always known that you were born to fly But you can come to me If the world breaks your heart No matter where on Earth you are You can come to me

And the seven sea's you sail All the winding road you're on Leave you lost and feeling all alone Let my heart be your beacon home

If you ever need a place to cry Baby, come to me Come to me I've always known that you were born to fly But you can come to me When the world breaks your heart No matter where on Earth you are You can come to me
