

# Didn't Know Love

Celine Dion

I thought I had it long ago  
I held on but It let go  
It kissed me on a subway train  
And I meant it

It got my hand  
It brushed my cheek  
It moved right in, It got me deep  
You know, it even had a name  
I really felt it

I didn't know love  
Not even close  
This is more beautiful and frightening  
That I've ever known  
It's making me weak  
Making me strong  
It's making me afraid I'm gonna wake up  
And find it gone  
I didn't know love

It's a blessing  
It's a curse  
You know you've found it when it hurts  
It can drive you off a cliff  
But it's worth it  
Careful way to spend the night  
It's complicated when it's right  
You can make me such a mess  
Yeah you're perfect

Cause I didn't know love  
Chorus  
I didn't know love  
Not even close  
This is more beautiful and frightening  
That I've ever known  
It's making me weak  
Making me strong  
It's making me afraid I'm gonna wake up  
And find YOU gone

No I didn't know love

Now you're lying in my arms beside me  
In the past I'd settle for a touch  
I'd tell myself it was enough  
I was lying, lying, lying

Cause I didn't know love

I didn't know love  
Not even close  
This is more beautiful and frightening  
That I've ever known  
It's making me weak  
Making me strong

It's making me afraid I'm gonna wake up  
And find YOU gone  
I didn't know love
