

# Fade Away

Celine Dion

I learned from the past  
Not everything lasts  
I understand that now

Everything changed  
When you walked away  
But I'll survive somehow  
Though I have regrets  
I'll learn to forget  
And just keep moving on

Cause when love is gone  
You have to be strong

Once touched by pain  
You're not the same  
But time can heal  
Your heart again  
So let the clouds  
That bring you down  
Just fade away  
Away

So I try to smile  
But after a while  
The memories come back  
But I won't give in  
Cause I know that then  
My heart will fade to black

And this time I learned  
That love can burn  
It's an all consuming flame

There's no right or wrong  
I've got to be strong

Once touched by pain  
You're not the same  
But time can heal  
Your heart again  
So let the clouds  
That bring you down  
Just fade away

I know that one day I'll find that feeling again  
But until I do I'll do it fine by myself

Once touched by pain  
You're not the same  
But time can heal  
Your heart again  
So let the clouds  
That bring you down  
You know that

Once touched by pain

You're not the same  
But time can heal  
Your heart again  
So let the clouds  
That bring you down  
So let the clouds  
That bring you down  
Just fade away  
Away
