

Faith

Celine Dion

Don't be afraid to feel this way
Gonna make you understand
It's not about you, cause I am the fool
Building castles in the sand

If I am crazy, just don't care
It doesn't mean I don't want you near,
This is the story about me and you
And it's called...

Faith!
Right beside you is where I'll stay
Oh Faith !
Just take me as I am... so please... have faith!

So many times and so many ways
I didn't know just where to go,
You gave me a sign and opened my eyes
That's the reason why I know

That you are different, you're still here
I guess you figured me out right then
Now I believe that we can make it through
And that's called...

Faith!
Right beside you is where I'll stay
Oh Faith!
Just take me as I am... so please... have faith ! have faith !

So don't be afraid... to feel this way...
Just hear me out!
Stay...

...and that's called...

Faith!
Right beside you is where I'll stay
It's not too late
Just take me as I am... so please... have faith... In me!

Oh yeah!
Just take me as I am... so please... have faith!
