

I'm Loving Every Moment with You

Celine Dion

Do you realize how long it's been
Where does all my time with you go?
And all the memories
We shared as friends
Reflected-in my heart
Is where they show

I'm loving every moment with you
I'm living in a dream that's comin' true
I'm lost in everything you do
I love you
I'm saving every moment for you
You're hidden in a place that's safe and true
Lovin' everything we do

With every second
You hold me near
I'm closer to a place I want to be
To hear you whisper
But no one else can hear
I want your love
To stay forever-inside of me

I'm loving every moment with you
I'm living in a dream that's comin' true
I'm lost in everything you do
I love you
I'm saving every moment for you
You're hidden in a place that's safe and true
Lovin' everything we do

In our silence
Looking in your eyes
I hear words you don't need to say
Just hold on baby
'Cause it's reason-I'm prayin'
You feel what I feel
In every way
