

## Je T'aime Encore

Celine Dion

Here the autumn ends bringing back the rain  
The old Chevy's dead they tried to fix it in vain  
Elisa's got her first teeth, little Jimmy is getting strong  
I'm learning guitar I almost know a song

I've found some chanterelle at the market this morning  
I'd like to live in Rome, oh it would be such a good thing  
Try to grow some flowers, the same I tried before  
That's all for now  
Oh yes je t'aime encore

But where are you  
So far with no address  
How's life for you  
My hope is my only caress

Finally cut my hair, I hear you say at last  
It's been kind of strange but you see I survived  
When I'm asked I go out, I dance all night and more  
But when I dance  
Je t'aime encore  
But where are you  
So far with no address  
How's life for you  
Time is my only caress

Je t'aime encore just like in an old fashioned song  
And it burns in my soul, anything else seems too long  
Oh more and more, as strong as I can be  
Oui je t'aime encore  
But you, you cannot hear me.
