

# Lovers Never Die

Celine Dion

You said forever after  
But what came after that  
Wasn't what I expected  
I expected you back  
You said that you're romantic  
Where's the romance in this?  
It's obvious that you're full of it

I tried to give it time  
But then our time slipped away  
You said that you'd be fine  
But finally I'm awake  
You said it's only habit  
But what happened is this  
It's obvious I'm not having it

You said the pretty things you know I like  
But I can read between the lines  
If lovers never die then why do I need you?  
Believe when I see you  
Whenever I see you  
It kills me inside  
Why'd you say goodbye if lovers never die?

I trust too easily  
I trusted you'd treat me well  
I've faced the truth but facing you I'm asking for help  
You played the gentleman  
But there's no gentle in this  
It's obvious you're full of it

You said the pretty things you know I like  
But I can read between the lies  
If lovers never die then why do I need you?  
Believe when I see you  
Whenever I see you  
It kills me inside  
Why'd you say goodbye if lovers never die?

It was just a lie  
But I survived  
Why do you say goodbye if lovers never die?

If lovers never die then why do I need you?  
Believe when I see you  
Whenever I see you  
It kills me inside  
Why'd you say goodbye if lovers never die?  
Why'd you say goodbye if lovers never die?
