

# Perfect Goodbye

Celine Dion

Forty five steps in the same direction  
Oh, ain't it strange we're here connecting  
Don't need to understand if God's got a plan  
It's out of our hands anyway

No regrets this is heaven sent  
Look at where we are, it's amazing  
And if you need me, I will be in your memory

Goodnight baby, kiss me now, don't make me sad  
After midnight promise we'll never look back  
This shit is perfect  
Each second worth it  
Let's save this love before we go and hurt it now  
Goodnight baby  
With stars in the sky  
This is the perfect goodbye

Forty five steps in the same direction  
Just take my hand, don't ask no questions  
Don't need to understand if God's got a plan  
It's out of our hands anyway

No regrets this is heaven sent  
Look at where we are, it's amazing  
And if you need me, I will be in your memory

Goodnight baby, kiss me now, don't make me sad  
After midnight promise we'll never look back  
This shit is perfect  
Each second worth it  
Let's save this love before we go and hurt it now  
Goodnight baby  
The stars in the sky  
This is the perfect goodbye

'Cause I don't wanna be here without you  
I'd rather just bottle time  
Open up the memory and keep you by my side  
I can't believe that I ever found you  
Baby take a look around?  
Everything is perfect now

So goodnight baby, kiss me now, don't make me sad  
After midnight promise we'll never look back  
This shit is perfect it  
Each second worth it  
Let's save this love before we go and hurt it now  
Goodnight baby  
With stars in the sky  
This is the perfect goodbye

With stars in the sky  
This is the perfect goodbye  
This is the perfect goodbye
