

## Right Next to the Right One

Celine Dion

What if we were meant to be together  
What if you were meant to be the one  
I could hide a million years and try to believe  
That any time the girl in mind will come and rescue me

Cause you're the fire, you're the one  
But you'll never see the sun  
If you don't know, you're right next to the right one  
And I could call it many names  
But it's myself I need to blame  
If you don't know, you're right next to the right one

In the end you've got a friend for lifetime  
Truly there to truly care for you  
I know you cry a million tears so I want you to know  
That a pretty face can take you places, you dont wanna go

Cause you're the fire, you're the one  
But you'll never see the sun  
If you don't know, you're right next to the right one  
And I could call it many names  
But it's myself I need to blame  
If you don't know, you're right next to the right one

So in the end it all depends on whether you'll find  
Warm embraces when I replace the one you had in mind...

Cause you're the fire, you're the one  
But you'll never see the sun  
If you don't know, you're right next to the right one  
And I could call it many names  
But it's myself I need to blame  
If you don't know, you're right next to the right one
