Nocturne

Celtic Woman

Now let the day just slip away So the dark night may watch over you Velvet blue, silent true It embraces your heart and your soul Nocturne

Never cry, never sigh You don't have to wonder why Always be, always see Come and dream the night with me Nocturne

Have no fear When the night draws near And fills you with dreams and desire Like a child asleep so warm, so deep You will find me there waiting for you Nocturne

We will fly, claim the sky We don't have to wonder why Always be, always see Come and dream the night with me Nocturne

Though darkness fades it will give way When the dark night delivers the day Nocturne
