## **Stay Awake**

## **Celtic Woman**

Stay awake, don't rest your head Don't lie down upon your bed As the moon drifts in the skies Stay awake, don't close your eyes Stay awake, don't close your eyes

Though the world is fast asleep
Though your pillow's soft and deep
You're not sleepy as you seem
Stay awake, don't nod and dream
Stay awake, don't nod and dream

Stay awake, don't rest your head Don't lie down upon your bed And while the moon drifts in the skies Stay awake, don't close your eyes Stay awake, don't close your eyes
