

# Now She Walks The Shadows

Cemetery

[Music - Lodmalm/Sievers]

[Lyrics - Lodmalm]

All but gone  
Her laughter still burns  
Burden black, rosen red  
The setting sun becomes her

Now she walks the shadows  
Now she haunts the night

Nocturnal Queen  
Forbidden fruit  
Curse the light, bring forth the dark  
True beauty erased by sunlight

Now she walks the shadows  
Now she haunts the night

Ill the flesh  
Longing night  
May the last dawn now enter  
...And the sun to drown in sin

Now she walks the shadows  
Now she haunts the night
