One Burning Night

Cemetary

Some might call me a sinner Some might call me a saint The beast may hound The beast may roam Now you know what lurks inside When you please me

One burning night One death inside One dream to live One life to give In the shodows I hide Wanna slip inside You know my name You will know my name

Some might call me a sinner Some might call me a saint The beast may hound The beast may roam Now you know what lurks inside When you please me

One burning night One death inside One dream to live One life to give In the shodows I hide Wanna slip inside You know my name You will know my name

Gone the wall is black Reach the end no turnin back Much closer to the truth Suspended in the corpse of youth

One burning night One death inside One dream to live One life to give In the shodows I hide Wanna slip inside You know my name You will know my name
