

It's quite alright down here  
It's quite a feel down here  
See I ain't going nowhere  
Well I'm so sincere  
It's such a fight down here  
And it's all tight down here  
You'll feel the might down here  
Finally I see clear

Lost all the same so I'm going with what I know  
I'm losing myself in that wavecell down below  
Lost all the same so I'm going with what I know  
I'm drowning myself in that wavecell down below

It's kinda cold down here  
But they leave me alone down here  
Flickering lights down here  
Far from god, far from everywhere  
It's such a ride down here  
No need to stand aside down here  
You'll watch me feed down here  
Well I ain't going nowhere

Lost all the same so I'm going with what I know  
I'm losing myself in that wavecell down below  
Lost all the same so I'm going with what I know  
I'm killing myself in that wavecell down below
