

Overcall

Cemetery of Scream

Please me or bless me
I'm full of your lack
depress me and press me
to give me your slack
weed of your decease
anger of your bliss

Crown all your world
cell you gave me to live
will be my jail
my reason to fell
that hate you love to breed
will be your decrease

Crash me or slash me
I'll fix to your dreams
depress me and press me
I'll feel what you'll give
found lieing on the floor
the day you realesed your fear.
