

In the age of darkness we are still riding through  
Cold sweeping winds from the other side  
The ravens shadow follows our path  
Oh, mighty god - Give me power to desecrate

In the name of evil we are killing with power  
Unleash the final fire and we conquer in blood

Now we have raised our swords in the cold northern lands  
Heading for the battle with strenght in our hands  
The aim is to kill you upon the freezing snow  
Now it's time for war and your heart will be my stone

In the name of evil we are killing with power  
Unleash the final fire and we conquer in blood

Hellish bloodshed in the north  
Battles in the bloodred snow  
Chaos is our killing game  
We take your life, we eat your soul  
The battle demon strikes again  
I carve your flesh until the end

Chaos in the north  
We take your life, we eat your soul - War

In the age of darkness we are still riding through  
Cold sweeping winds from the other side  
The ravens shadow follows our path  
Oh, mighty god - Give me power to desecrate

In the name of evil we are killing with power  
Unleash the final fire and we conquer in blood
