

## Driven To Insanity

## Cephalic Carnage

It's sad when kids take their lives  
In the act, kill 13 peers  
What drives a mind to kill?  
Must have been really catastrophic

To hate violently stockpile guns  
Inflictin' revenge gruesomely  
That oblivious day,  
Who would foresee media spectacle,

Enshroud in tragedy  
Victims will beg and plead  
Nation in shock, copy-cat's mock  
Upscaled high school...

Killing of the rich  
Can happen anywhere...  
Even in your neighborhood  
Children are snapping...

Peach through annihilation  
It kind of sucks... Innocent people died  
What made this happen...  
Condolence to the bereaved

Deranged adolescents...  
Or victims as well  
Society could learn from this  
Listen to your kids

Two die brains go splat
