

## Vaporized

## Cephalic Carnage

Vaporized, vaporized  
There's a way to free your mind  
A vaporizer so divine  
The best pipe you'll ever find  
Grind up your weed  
And load the wand  
Place it on a heating element  
Inhale the mist of the gods  
Only the pure oils  
Seep into the lungs  
No carcinogens or nasty resins  
It's a gift from the heavens  
And way healthier  
Then joints and bong  
Vaporizers are where it's at  
Gets you high, that's a fact  
Vaporizers free the soul  
Eliminating the use for a flame  
You smoke out of this you won't feel the same  
Living in the Rocky Mountains  
Makes me feel alive  
Getting stoned with friends  
The air is really thin  
Our weed is the best  
Legalize  
Put it to rest  
Stoners are mellow  
And just want to be  
Smoke in peace  
Let us be free  
Vaporized I am so high  
Vaporized from nugs crystallized  
The scent and amazing taste  
Puts a smile on my face
