

## Germ Of Error

## Cerebral Turbulency

Sit down and die!  
I'm glad you understood your surroundings  
Understood and didn't let know  
And who will instruct us "the best knowing"?  
Wealthy? Bliss? Love?  
Suffering? Hardship? Solitude?  
Rise and fly up!  
I feel your confusion  
And who will show the way us "infallible"?  
Ambition? Belief? Success?  
Desperation? Nothingness? Doubts?  
With opened mouth and closed eyes I burnt my life and stood upside down  
Thoughts converted for money and awoke in summer storm
