

## Body And Blood

CETI

Time,  
Which lives in us  
Change the way of life,  
Change the body and blood

Run,  
Through thousand years  
To touch you  
Be close  
To your mouth.

Only, night  
Living in my heart  
And hurts every day  
Makes the tears dry

Ice,  
Around only wind  
I hear silent voice  
I'm alone...

I'm dying alive  
To hear you, between my thoughts  
I'm giving all my days, to kiss you -  
All my days...

Time,  
Close the doors  
I don't know anything  
Don't know anything

Ice,  
Around only wind  
I hear silent voice  
I'm alone...

I'm dying alive
