

Burning Fantasy

CETI

High in the sky, and deep in the ground
There are some things that no one can found
Cause man thinks - it must be one real thing

Time after time men looking for that
Ancient ghosts are ready to fight
Cause they know - that would be deadly for a man

Moving on dangerous place
Seeking for somebody else
Who will be teacher of mine
And give me important sign

Burning wheels and red bloody knives
Stands on the way to last Gate of Rights
Cutting your mind - and you must feel like a dust

Much time and more human lives
Dying with cry and crying with fear
And they've known - that it was deadly for a man

Moving on dangerous place
Seeking for somebody else
Who will be teacher of mine
And give me important sign

It's only history
Burning in fantasy
Present in mystery Of live
