

# Lady Of The Storm

CETI

See her fly  
Wonder why  
Mighty storm  
Coming down

From the night  
Purple sight  
In the power  
Soon we'll know  
Sure we soon will know

Walk the line  
Crime for crime  
Count the lost  
That's her toast

Said: you see  
Deep in me  
Lady luck  
Hit the smack

Lady of the storm

Strong as tide  
Sharp and wide  
Look at her  
Saw you there

On the rocks  
Shakin' guts  
Has to come  
She goes, goes

Lady of the storm

What you want to do  
Doesn't matter now for you  
Bloody prayers sad and fair  
So she's here such a fear

Lady of the storm

See her fly  
Wonder why  
Mighty storm  
Coming down

From the night  
Purple sight  
In the power  
Soon we'll know

Lady of the storm
