

Burning Photographs

Chad VanGalen

I spend time of mine burning photographs
And now I'm stuck somewhere in the middle
At least we got a lill piece of me
And listen to the song that everyone is singing

I spend time trying to
Kicking all the dirt and running in the circle
And we lived out lives inside star?
And we ate our that we shared in the temple
I spend time of mine burning photographs
And now I'm stuck somewhere in the middle
At least we got a lill piece of me
And listen to the song that everyone is singing
And no more worthy compliments

More meaningless
And lisen to the song that everyone is singing
