Burning Photographs

Chad VanGaalen

I spend time of mine burning photographs And now I'm stuck somewhere in the middle At least we got a lill piece of me And listen to the song that everyone is singing

I spend time trying to Kicking all the dirt and running in the circle And we lived out lives inside star? And we ate our that we shared in the temple I spend time of mine burning photographs And now I'm stuck somewhere in the middle At least we got a lill piece of me And listen to the song that everyone is singing And no more worthy compliments

More meaningless And lisen to the song that everyone is singing
