

City Of Electric Light

Chad VanGalen

And I thought you were the moon in the sky
But it turned out you were just a street light
You were burning like a hole in the night

You were burning like a city of electric light (4x)

And I thought you were the moon in the skies
But it turned out you were just a pair of eyes
You were lurking like a creature in the night

You were looking like a city of electric light (4x)

Hanging by a field
Hanging in your sleep
Hanging in a dream

Uuuhhh uuuuh uuuuh uuuuuh

He connect the stars
Every single one
Hanging like the sun

Uuuhhh uuuuh uuuuh uuuuuh

And I thought you were the moon in the sky
But it turned out you were just a street light
You were burning like a hole in the night

You were burning like a city of electric light (4x)
