Kill Me In My Sleep

Chad VanGaalen

```
You're gonna kill me in my sleep
You'll hold me down til I can't move
You'll press the pillow to my face
And hold it down so I can't breathe

Sleep creeping around
Night stalking all around
You've got it down, yeah, don't you
Night stalking around
Sleep creeping all around
You've got it down, yeah, don't you

You're gonna kill me in my sleep
You'll slit my throat and drain my blood
You'll step back and watch me bleed
And then you'll make a clean escape
```
