

## My Day

Chainsaw

This is the day when I want to be alone  
Without you  
Without friends  
Without anyone  
And it doesn't matter if it's here or there

Ceiling- the only bearable companion  
My home - guardian of my peace  
You won't chat with me today man  
So better stay out of my room

I'm sick of you all  
Today is my day  
I don't need your worries  
I'm sick of you all  
I don't need your help  
This day is for me

And I hear the words I hate  
Are you sick?  
What's happened?  
It's the kids again?  
And then I'm not ashamed to swear

Today is the day of my ego  
Leave me alone  
Don't ask me why  
That's the way it's got to be

I'm sick of you all  
Today is my day  
I don't need your worries  
I'm sick of you all  
I don't need your help  
This day is for me
