

My Day

Chainsaw

This is the day when I want to be alone
Without you
Without friends
Without anyone
And it doesn't matter if it's here or there

Ceiling- the only bearable companion
My home - guardian of my peace
You won't chat with me today man
So better stay out of my room

I'm sick of you all
Today is my day
I don't need your worries
I'm sick of you all
I don't need your help
This day is for me

And I hear the words I hate
Are you sick?
What's happened?
It's the kids again?
And then I'm not ashamed to swear

Today is the day of my ego
Leave me alone
Don't ask me why
That's the way it's got to be

I'm sick of you all
Today is my day
I don't need your worries
I'm sick of you all
I don't need your help
This day is for me
