I tried to do handstands for you
I tried to do headstands for you
Every time I fell on you yeah every time I fell
I tried to do handstands for you
But every time I fell for you
I'm permanently black and blue, permanently blue
For you

I tried to do handstands for you
I tried to do headstands for you
Every time I fell on you yeah every time I fell
I tried to do handstands for you but every time I fell for you
I'm permanently black and blue, permanently blue

For you ooo ...
For you ooo ...
So black and blue ooo ...
For you ooo

I grabbed some frozen strawberries so I could ice your bruising knees
But frozen things they all unfreeze and now I taste like
All those frozen strawberries I used to chill your bruising knees,
Hot July ain't good to me
I'm pink and black and blue
(for you)

I got bruises on my knees for you
And grass stains on my knees for you
Got holes in my new jeans for you
Got pink and black and blue

Got bruises on my knees for you
And grass stains on my knees for you
Got holes in my new jeans for you
Got pink and black and blue

For you ooo ...
For you ooo
So black and blue ooo ...
For you ooo ...
