

## Make Your Mind Up

Chairlift

Looks like you've got a problem  
You can't make up your mind  
If you want the one who loves you  
Or if you want to leave him behind

Well, darling, I've got a present  
I made it just for you  
In this velvet package  
Is ten free hours of time

You can make your mind up  
You can make your mind up  
You can make your mind up  
You can make your mind up, honey

Cut it up into powder  
Take it like a line  
The world will stop and wait for you  
For ten free hours of time

You can walk right up to strangers  
Frozen in their tracks  
Look at their drinks as they're pouring  
Look at the skin of their mouths

And you can make your mind up  
You can make your mind up  
You can make your mind up  
You can make your mind up, honey

You can make your mind up  
Only you can make your mind up  
Only you
