

Everything Changes

Chaka Khan

Everybody wants you, you got it goin' on
And you know it's not fair
All the ladies want to profess their love to you
And yet you really don't care

You might think you have everything
Whether you do or not, I think that you forgot that

Everything changes, left to right, cold gets hot
Everything changes, one day will turn to night
Whether you like it or not

Now, I am no authority
But I've been around and I've seen a lot
Love's the one priority
Either settle down or lose the little you've got

We don't have forever
It's now or never so shoot your best shot

Everything changes, left to right, cold gets hot
Everything changes, one day will turn to night
Whether you like it or not

It's no good to keep on holdin' back
All those good emotions, I'll be there for you

You might think you have everything
Whether you know or not, I think that you forgot that
