

# Love You All My Lifetime

Chaka Khan

Cold endless summer days  
Since you went away  
Tore my heart in two  
And now wandering through the night  
I see the city lights  
Feelin' so in need  
I'll never be at peace

Love you all my lifetime  
Lost to you eternally  
Everything in my life  
Tells me we were meant to be

Strange there's always something wrong  
Dreams don't last that long  
What part did I play in that game  
And now, now you turn away  
Excuses are too late  
Feelin' so in need, i'll never be at peace

Love you all my lifetime  
Lost to you eternally  
Everything in my life  
Tells me we were meant to be

Miss you every minute  
Hoping for another chance  
I hope that you can see that  
And we can start a new romance

You make the rain and the night go away  
You make the sun rise up in my sky  
You make the rain and the night go away  
You make the sun rise up in my sky
