

Pop My Clutch

Chaka Khan

There may be some youngbloods
Waitin' in the wings
I'm puttin' on my good duds
So you can hear me sing
I know what you're thinkin' but
This ain't no one night stand
I'm savin' all the good love
For only one man

Pop, pop my clutch (4x)

Don't worry `bout the weather
In London or Rome
Once we get together
You're gonna take me home
I've had plenty boyfriends
Now I need a man
To love me, whatever
And a ring on my hand

Listen pretty baby
I won't say it twice
You could save me
From my own device

Honesty is so refreshing
I don't get that much
You just might be the blessing
To make me pop my clutch

I know what you're thinkin'
But this ain't no one night stand
I'm savin' the good stuff
For only one man

Listen, pretty baby
I won't say it twice
You know you could save me
I you pop it right
