

Your Love Is All I Know

Chaka Khan

In my mind
I only see your face
And time will not erase
What I feel for you, I feel for you

In my heart
It was always you and me
That's how I thought it would be
Forever and ever

Where do I go? What do I do?
After all that we've been through
How do I turn around?
Just turn around and watch you go
'Cause baby, your love is all I know

The touch of your hand
The warmth of your embrace
I always had a place here in your arms
I felt so secure, I didn't need anything more

Where do I go? What do I do?
After all that we've been through
How do I turn around?
Just turn around and watch you go
'Cause baby, your love is all I know

Tell me, how can you walk away
And find somebody new, somebody new
Somebody new, when I can't see myself
With anyone but you?
