Break It Even

Chalee Tennison

I see leaving comin'
Your feeling for me is going nowhere, nowhere
Your heart's no longer in
Your mind's a mile a minute somewhere, not here
So go on and get me over
Tell me I'm old news
I'll take it like a woman
Ain't no big to do

If you're gonna break it
If you're gonna let me down
Just leave me half of what I came with
When you came around
If you're gonna say goodbye
If you're gonna make me cry
Just say it now
Tell me that you're leavin'
Oh, if you're gonna break my heart
Baby, break it even
I'll pick up the pieces when you're gone
If you'll leave me something to go on

If you're gonna break it
If you're gonna let me down
Just leave me half of what I came with
When you came around
If you're gonna say goodbye
If you're gonna make me cry
Just say it now
Tell me that you're leavin'
Oh, if you're gonna break my heart
Baby, break it even
I'll pick up the pieces when you're gone
If you'll leave me something to go on

If you're gonna say goodbye
If you're gonna make me cry
Just say it now
Baby, break it even
I know you're gonna break my heart
Just break it even
Break it even
